

# The Grid of the Future is **Customer-Powered**

## CPower's Virtual Power Plant Platform Rewards Customers for Helping the Energy Transition

CPower is unlocking the value of distributed energy resources (DERs) through virtual power plants (VPPs) to create the **Customer-Powered Grid™**. Energy users play an active role in managing and optimizing the use of DERs to enable a flexible, clean and dependable energy future.

### How It Works

CPower's VPP Platform seamlessly connects customers' distributed energy resources to energy markets, helping them generate cash for sharing their capacity to ensure grid reliability and reduce our reliance on polluting power plants.

By joining the largest virtual power plant (VPP) platform in North America, our customers can streamline their energy market activity, ensure performance and compliance through our 24x7x365 dispatch center, and track and measure payments.

# Why CPower's VPP Platform?

## Simple

Integrated, automated VPP platform simplifies the customer experience.

## Smart

Technology-enabled solutions optimize the value of DERs.

## Scalable

Customers operate and scale efficiently.

### ■ Increased Revenue:

Identify more revenue streams through access to a wide range of energy solutions across the country.

### ■ Reduced Risk:

Avoid penalties and shortfalls by forecasting performance accurately.

### ■ Efficient Operations:

Maximize revenue and minimize costs through dispatching expertise and extensive experience monetizing DERs.

### ■ Expertise:

Specialized knowledge and experience in navigating energy markets and regulatory frameworks.

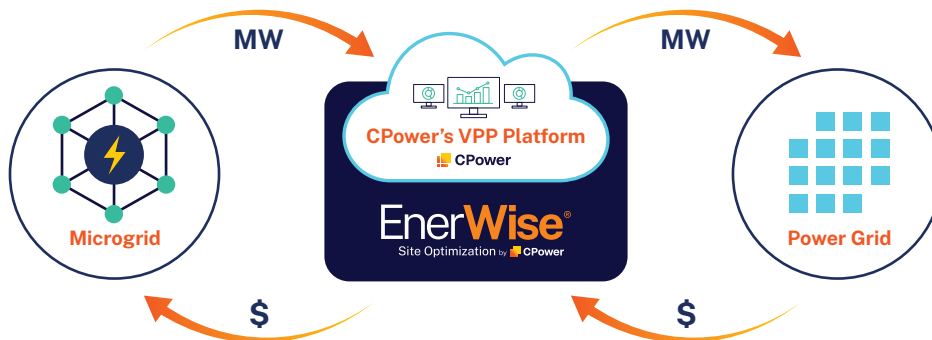

### ■ Scale:

Increase earnings while reducing risk by strategically deploying DERs across energy markets at optimal times based on their operational parameters.

### ■ Simplified Market Integration:

Use a single access point to monetize DERs in energy markets and programs across the U.S., thereby reducing the administrative burden and the need to determine complex market rules and regulations.

## Earn Predictable Revenue & Worry Less

## Optimize and Monetize Your DER Investments

Maximize your financial return across on-bill savings and grid services programs by automatically identifying and executing the most lucrative energy management strategies with our innovative technology and leveraging our experience in paying out more than \$1 billion in grid revenue.

**As the nation's largest VPP provider**, CPower is the leader in helping customers get paid to strengthen the grid when and where it is needed the most. Unlock the full value of your DERs through CPower's VPP Platform.
