Updated 2-2025

New York utilities offer two types of demand response programs: Distribution Load Relief Program (DLRP) and Commercial System Relief Program (CSRP). Below are some of the important parameters for each program.

| MINIMUM SIZE | 50 kw | | | | | | | |
|------------------------------------|--|--|--|--|--|--|--|--|
| PARTICIPATION | Customer participates for summer season from May 1 through September 30, with exception of Central Hudson CSRP which runs June 1 through September 30. | | | | | | | |
| NUMBER & DURATION OF | CSRP: Participants agree to provide the load reduction for a minimum of 4 hours. Utilities may have different call windows. | | | | | | | |
| RESPONSE EVENTS | DLRP: Participants agree to provide the load reduction for a minimum of 4 hours. Customer can be called anytime from 6AM - 12AM | | | | | | | |
| | CSRP: Dispatched based upon a percentage of the forecasted system peak demand. National Grid, NYSEG, RG&E, and Orange & Rockland dispatch at 92%. Central Hudson and PSEG-LI dispatch at 94% of forecasted peak demand. | | | | | | | |
| DISPATCH TRIGGERS | DLRP: Program is dispatched to address distribution system contingency events | | | | | | | |
| NOTIFICATION | CSRP: 21 hours advance notice and then up to 2 hours prior to the start of the event DLRP: Up to 2 hours prior to the start of the event | | | | | | | |

| BASELINE (CBL) | Customer Baseline Load (CBL): Average of the usage of each hourly interval of the top 5 days out of last 10 eligible weekdays. PSEG-LI has a10-day average weather adjusted CBL for net-metered customers with storage and/or solar. | | | | | | | |
| SETTLEMENTS | Customers are paid seasonally their portion of the capacity or energy payments. | | | | | | | |
| COMPLIANCE | Customers are required to curtail at least their committed load during events and test events. | | | | | | | |

| TESTING | A 1-hour test is called during each seasonal capability period if an event has not yet been called (notified similarly to an event), except for Orange & Rockland DLRP that requires a 2-hour test. | | | | | | | |
| ENROLLMENT DEADLINE | April 1st for May 1st start; May 1st for June 1st start | | | | | | | |
| METERING | Each account must have an hourly utility interval meter or AMI Smart Meter – provisional participation allowed if communications between utility and meter have not yet been established. | | | | | | | |
