ConEd offers two types of demand response programs: Distribution Load Relief Program (DLRP) and Commercial System Relief Program (CSRP). Below are some of the important parameters for each program.

MINIMUM SIZE	CSRP and DLRP: 0.1 kw DLRP Only – **Beginning in 2021, separate weekday and weekend kW enrollments allowed. Weekend kW enrollment values must be at least 25% of weekday kW.
PARTICIPATION	Customer participates for summer season from May 1 through September 30
NUMBER & DURATION OF RESPONSE EVENTS	CSRP: Participants agree to provide the load reduction for a minimum of 4 hours. (Morning networks: 11AM-3PM; Day Networks: 2PM-6PM; Evening Networks: 4PM-8PM; Night Networks: 7PM-11PM) DLRP: Participants agree to provide the load reduction for a minimum of 4 hours. Customer can be called anytime from 6AM - 12AM
Dispatch Triggers	CSRP: 92% of day-ahead peak demand forecast compared to seasonal peak demand forecast. **Beginning in 2021, ConEd has the option to trigger mandatory events based upon a Temperature Variable of 84 degrees on a by-borough basis. DLRP: Triggered based upon Contingency or Immediate local distribution system issues that could result in a loss of service to 15k customers or a voltage reduction of 5% or more.
NOTIFICATION	CSRP: 21 hours advance notice and then up to 2 hours prior to the start of the event DLRP: Up to 2 hours prior to the start of the event for Contingency Events. No notice provided for Immediate Events called between 6PM-9PM (performance based upon best-performing hours before 12AM).

COMPLIANCE	Customers are required to curtail at least their committed load during events and test events.
CONSEQUENCES OF NON-PERFORMANCE	No penalty but de-rating applies for under-performance in DLRP tests or events with at least 2-hour notification. Performance of 25% or less of the enrolled amount will result in no payment.
TESTING	CSRP: A 1-hour test is called during each seasonal capability period if an event has not yet been called (notified similarly to an event). DLRP: A 2-hour test is called during each seasonal capability period if an event has not yet been called (notified similarly to a Contingency event).
ENROLLMENT DEADLINE	April 1st for May 1st start; May 1st for June 1st start. Accounts enrolled for May 1st may elect to reduce enrolled kW for June 1st if updated by May 1st.
