E+E Leader AWARDS 2026 Winner

CONNECT HUB

Your window into your demand response with CPower, Connect Hub is the award-winning “See” layer of the Connect platform. It makes your participation and value streamlined and transparent in one place and experience.

WHY IT MATTERS

Value only counts when you can see it

Connect Hub is where your value becomes visible — to you, to your stakeholders and to the financial performance of your organization. It’s a single location where onboarding, account management, performance and earnings all come together for a full, comprehensive view of your energy management.

WHAT IT DOES FOR YOU

Connect Hub is a full-service platform built for organizations that see energy as more than a cost of doing business

- Streamlined, step-by-step onboarding and enrollment into demand response all in one place.
- Simplify participation with a full service, single platform for everything from contracting to earnings statements.
- Gain actionable insights through reports, performance and energy use in one interface.
- Always know your impact with comprehensive earnings views for every site and program.
- Stay on top of your participation with configurable notifications and dispatches.

HOW CONNECT HUB WORKS

Seamlessly integrated with your energy assets, CPower and the Grid

Connect Hub integrates the data from the grid, including your telemetry data, program enrollments and settlements, and energy assets like load, batteries and generators with our account information, performance reports and documents and streamlines it all into one intuitive interface.

CUSTOMIZE YOUR EXPERIENCE

Only see what you need to see. Dashboards, notifications and information are all configurable to your needs.

THERE'S MORE TO CONNECT

Connect Hub is the "See" layer of CPower Connect – but there's more

CPower Connect gives every customer the visibility to capture the full value their energy assets can produce. Connect Intelligence and Connect Command complete the platform and allow you to fully optimize and automate your demand response participation. CPower Connect compounds earnings and automates with no upfront cost to you.
